## ACCEPT ORDERS FOR FRESH PORK AT MART TODAY

Orders were being taken at the Farmers' Market today for fresh pork and pork products to be delivered next Saturday morning. New applebutter and fresh cider were on sale while apples were offered in usual quantities and varieties—apparently little affected by the recent WPB order restricting certain varieties and grades for use in processing plants.

The fresh cider brought 40 cents a gallon while the new applebutter sold at 40 cents a quart, 80 cents a half gallon and \$1.50 a gallon.

Although some growers predicted that few apples will be available here after January 1, there were plenty on sale this morning. The prices ranged downward from \$3.50 per bushel for packed Stayman to \$1 a half bushel for McIntosh, Smokehouse and Delicious. Lower grades of all varieties sold at reduced prices.

### Tomatoes Available

Heavy current demands for fruit for processing resulting in heavier calls on the better grades for marketing will consume the county crop in a few months, some marketmen said. An unusually small per cent of the apple crop is going into storage this year, it was pointed out.

Some growers continued to offer tomatoes by the half bushel although others reported their tomato stalks had been killed by the heavy frosts. The tomatoes sold for \$1 and 75 cents a half bushel or 15 cents a quart box.

Sweet potatoes brought 20 cents a quart box while white potatoes brought 60 and 75 cents a peck. Celery was 20 and 25 cents a stalk. Home-grown English walnuts sold at 35 cents a quart box. Parsnips brought 15 cents a pint at one stand. Keefer pears were offered at 15 cents a quart box.

Eggs brought 55 and 58 cents a dozen while dressed chickens brought from 52 to 58 cents per pound.

### BIRTH ANNOUNCEMENT

Mr. and Mrs. Allen Knott, Thursday, announce the birth of a daughter at the Warner hospital Friday evening.

### Pins Pop Pains

Washington, Pa., Oct. 16 (AP)—Pins which her mother believes are the ones 15-year-old Florence Fordyce swallowed 11 years ago began popping out of Florence yesterday.

She plucked one from her ankle on the way to Claysville high school and last night a doctor, hunting the cause of pains she was suffering, removed another. Both pins came out head-first, unruled.

During the night the pains continued with the doctor and Florence's mother wondering if more pins are preparing to pop.

**ARRIVES IN ENGLAND**  
George E. Stover, son of George Stover, Hanover street, has arrived safely in England.

## BOMBS BURST, FIRES RAGE—ONLY A TEST

Hundreds were killed and injured, fires raged out of control throughout Adams county, demolition squads rushed to rescue persons buried in bombed houses, medical, fire and police facilities were extended to their utmost.

That was the picture of Adams county in an air raid drawn by civilian defense officials during a state wide control center test Friday evening. Gathered in the centers throughout the county and at the county control center in Gettysburg, the civilian defense officials mapped out their plans to meet the exigencies of a mythical air raid on the county which was part of the state-wide destruction mythically occurring throughout the early part of the night.

According to the plan for the control center test drawn by state officials, Japanese planes from bases in the Arctic zone near the Canadian border and German planes from carriers in the Atlantic strafed and bombed the nation in criss-cross flights, with the Japanese and Germans flying from their own to their Axis-partner's bases. According to the theory of the test American defense planes were unable to carry out their mission of fighting off the bombers with much effectiveness.

### 5 Fires Reported

Five fires raged in Gettysburg during the time the bombers were supposed to have been over Adams county, from about 8 until 8:45 p.m. Heaviest casualties were at Huber hall where a bomb is supposed to have exploded, injuring many of the air cadets. Gettysburg medical officials rushed to the assistance of the regular Army medical organization there and later Carlisle Army medics were called on paper to assist. The SCA building and Old Dorm were converted into emergency hospitals.

Fire raged at the Epley garage, the Reaser furniture factory, the Gettysburg throwing company plant, Huber hall and the postoffice, where a janitor was assumed to have been injured, according to the test. Medical centers were set up at Meade school for the injured from the mill while no casualties were reported from the eastern end of town.

A squad was sent to handle an unexploded bomb supposed to have landed at the intersection of North Washington street and Lincoln avenue and police forces were so pressed that additional help was called. The fire company's trucks were not sufficient for the fires and additional help was received from the county.

**Many Areas Bombed**  
Similar incidents were staged for McSherrystown, Littlestown and Bigerville, with industries, railway stations and other buildings in those towns supposed to have been hit by bombs and numerous casualties caused. Fires were reported out of control, with additional fire help sent to communities hit by bombs from other sections.

Fire trucks from Fairfield, Bonneauville, Barlow, East Berlin, Bendersville and New Oxford, were summoned, on paper, to assist in combating the conflagrations.

All control centers in the county were manned for the test.

### Army Officers On Tour Of Field

About 50 officers from the Middletown Air Command school came here this morning to make a tour and study of the battlefield. Members of the group ranged in rank from second lieutenants to lieutenant colonels.

In command of the contingent is Lt. Col. W. E. Bashore, who was stationed at Camp Colt for a time during the World War I. A resident of Ohio, he is a descendant of former residents of this country.

**Start Class For Aides On Monday**

The next class of instructions for nurses' aides will start Monday afternoon at 2 o'clock at the nurses' home at the hospital, Mrs. Henry M. Scharf, chairman of the nurses' aids committee, said today.

The instruction classes will be from 2 until 4 o'clock in the afternoon. Mrs. Sydney J. Poppay will be the instructors.

Volunteers may enroll in the class at anytime up to the opening hours by telephoning Mrs. Scharf at the Hotel Gettysburg.

During the night the pains continued with the doctor and Florence's mother wondering if more pins are preparing to pop.

## 151 Admitted To Hospital In Sept.

One hundred and fifty-one patients were admitted to the Warner hospital during September according to the report presented Friday evening at the monthly session of the board of directors of the institution in the Nurses home.

The number of patients discharged was given as 132; number of deaths, four; births, 27, including 15 males and 12 females. Forty patients remained on the last day; the average number of patients per day was 33 and the number of accidents, 33.

Routine business was transacted by the board, with Dr. E. H. Markley presiding. Other members present included William Durbowar, Charles H. Smith, Carl Baum, Edmund W. Thomas, H. Harold Miller, the Rev. Fr. Mark E. Stock, Dr. Frank H. Kramer and Henry M. Scharf, of Gettysburg; Robert Martin and C. A. Stoner, representing Fairfield; C. A. Bixler, New Oxford, and William Shearer and Wilbur Bankert, Littlestown.

## FIREMEN SEEK TIN AND PAPER

Tin cans and paper were listed as the principal items being sought by the Gettysburg Fire company in its October salvage collection Tuesday evening, starting at 6 o'clock.

There is a constant need for tin cans, a spokesman for the company said, with the tin needed to make containers for medicine and other uses.

"Only by returning the tin cans we use, can we hope to provide enough tin to go around both for the civilians and the military. It is such a simple thing to do—to return the cans after you have used them, so that the tin may be used again," said the spokesman.

"Brown paper, paper bags, newsprint, magazines, all types of paper that is not greasy is needed," it was stated.

Householders in the community are urged to place their collection of salvage articles on the pavements Tuesday evening by 6 o'clock.

**GIVEN AWARD POSTHUMOUSLY**

Mrs. Carrie F. Long, 115 East Main street, Emmitsburg, mother of Staff Sergeant Wilbur Long, who was lost during an airplane flight over the South Pacific, has received the following communications from Henry Stimson, Secretary of War.

"My dear Mrs. Long:

"You will shortly receive the Purple Heart medal, which has been posthumously awarded by direction of the President to your son, Staff Sergeant Wilbur R. Long, Air Corps. It is sent as a tangible expression of the country's gratitude for his gallantry and devotion. It is sent to you, as well, with my deepest personal sympathy for your bereavement. The loss of a loved one is beyond man's repairing, and the medal is of slight value; not so, however, the message it carries.

"We are all comrades in arms in this battle of our country, and those who have gone are not, and never will be, forgotten by those of us who remain.

"I hope you will accept the medal in evidence of such remembrance."

"Sincerely yours,

"HENRY L. STIMSON"

The following is the citation: "UNITED STATES OF AMERICA. To all who shall see these presents, greeting: This is to certify. The President of the United States of America pursuant to authority vested in him by Congress has awarded the Purple Heart, established by General George Washington at Newberg, New York, August 7, 1782. To Staff Sergeant Wilbur R. Long, A.S. No. 6947590, for military merit and for wounds received in action resulting in his death. Given under my hand in the city of Washington this 1st day of October, 1943.

**OFFICER BUYS FARM**

Grover C. Myers has sold his 55-acre fruit farm in Huntington township, two miles from Idaville, to Capt. David Halperin, Brooklyn, New York. The officer soon will return to duty in North Africa. He takes possession of the farm Monday. C. A. Helges made the sale.

**Accident Victim To Be Interred Today**

Funeral rites will be held this afternoon at 2 o'clock from the Bender funeral home for William W. Miller, 68, Gettysburg R. D., who was fatally injured in an accident Wednesday morning on the Lincoln highway east of here. The Rev. Ralph R. Gresh will officiate. The public is invited to attend.

**Officer Candidates Study Battle Here**

Approximately 100 officer candidates from Edgewood Arsenal, Maryland, are camped on the Battlefield this week for a study of battle problems and maneuvers under the command of Capt. F. J. Hurley.

The soldiers, who expect to be graduated from the school within a month, have been applying the use of modern methods of warfare to Civil war strategy. Friday morning they reenacted Pickett's charge at the Bloody Angle using a modern approach for the battle. Thursday the group studied the Union and Confederate campaigns at Gettysburg from the observation tower on Big Round Top, and drove a jeep to the summit of the hill. Earlier in the week Dr. Frederick Tilberg, National Park office historian, related the battle history to the men.

**Hardware Store Robbed Of \$68.50**

The Gettysburg Hardware store, Baltimore street, owned by Calvin Shank, was robbed of \$68.50 sometime between 5:30 o'clock Friday evening and 7 o'clock this morning.

Chief of Police Glenn Guise, who investigated, said that the thief or thieves had made entrance by throwing a brick through a basement window. They entered the main part of the store from the basement. The money was removed from an unlocked safe in the office part of the store. Nothing else was believed to have been taken.

**Former Seminarian Leads Navy Class**

Harold W. Steup, Indianapolis, who was a student of the local Lutheran Theological seminary before entering the Navy on March 25, won top honors with a mark of 99.9 in a class of 467 sailors recently graduated from the U. S. Naval Hospital Corps school at San Diego, California.

Pharmacist's mate, third class, Steup is a member of the National Honor Society and has one brother, Lieut. Richard A. Steup, with the Army ordnance department.

## WOODEN CASES FOR HONOR ROLL ARE COMPLETED

### "Over The Top" By \$139,200

Adams county's Third War Bond drive went "over the top" by \$139,200 with three days' sales as yet unreported, Edmund W. Thomas, County Chairman, announced this morning.

The new figures, Mr. Thomas said, include the sale of "E" bonds through October 13th. The Treasury department has extended the bond sale drive to include those sales of "E" bonds through October 16th. Therefore, Mr. Thomas explained, the final tabulation for Adams county will not be known until the Federal Reserve Bank compiles the sales at the close of business today.

The large cases will be placed on the north side of the Dougherty and Hartley building facing the square. Dedication of the honor roll will take place on November 11 with the American Legion in charge of the erection of a permanent honor roll of countians in the service.

Completion of the three wooden cases for the nearly 3,000 Adams countians now serving in the armed forces was announced today by the committee in charge of the erection of a permanent honor roll of countians in the service.

2,653 names are being printed in gold letters on small panels which will be placed in alphabetical order in the cases. The cases, built at the local furniture factories, will be painted white and will be placed in the show rooms of the factories until the names are placed.

### False Rumor

"There has been a rumor that parents wishing their sons or daughters names to appear in the honor roll must pay for the name plate," Dr. R. D. Wickerham, chairman of the committee said today. "That rumor is absolutely false. The honor roll, which will remain as a permanent exhibit of the roster of the men and women of the county, is being constructed by donations from individuals and organizations throughout the county and there is no charge to each individual, for the placing of the names. It is difficult to understand how the rumor started.

There will be some names not included among the list at first, due to inability of the committee to learn the name of every man and woman from the county now in the service. We rely on the parents and friends of those whom we missed to tell us about it so that we can complete the list. We now have 2,653 names, but there are more countians in service than that. However, we plan, with the assistance of countians to have every service name on the roster.

### Estimated Cost

The drive to collect funds for the honor roll is progressing rapidly, it was stated, with nearly one-half of the sum presently needed in the hands of the committee. While no estimate can be made of the total amount required it will run between \$1,500 and \$2,000, it was estimated. While the original cost will not be that great a reserve fund must be created to have additional names printed as other countians are called to the service each month, it was stated.

"Only by returning the tin cans we use, can we hope to provide enough tin to go around both for the civilians and the military. It is such a simple thing to do—to return the cans after you have used them, so that the tin may be used again," said the spokesman.

"Brown paper, paper bags, newsprint, magazines, all types of paper that is not greasy is needed," it was stated.

# INDIAN CRISIS THREATENS TO AFFECT ALLIES

By DEWITT MACKENZIE  
The Associated Press

There is a fresh movement in India among liberal leaders to get a quick settlement of the British-Indian political crisis—an imbroglio which is dangerous for the Allied war effort, and especially so since terrible famine has descended on parts of the country to aggravate an already unhappy situation.

This column already has tried to emphasize the seriousness of the position. It returns to the subject now as a duty to readers, who are entitled to the facts in a case which is of such great concern to our United States.

## Need Indian Bases

The Indian empire—the size of Europe without Russia and with a population of 400,000,000—is the arsenal of the Orient. It's one of the most important military bases for our all-out offensive against Japan. From India we must stage the invasion of Burma, to open up China to the outside world. India is the base of great American air activities which are essential to the assault on Japan.

Does that picture need any touching up to make clear the gravity of the position? Famine and political bitterness would make a bad combination if unprincipled people should be able to capitalize on them for ulterior purposes. No wonder American military men in India are worried, and no wonder highly placed people in the United States would give much to see the political crisis eliminated.

Bengal province with its population of 60,000,000 is hardest hit by the famine. Latest reports indicate that last week some 175 people were dying daily from hunger in the great city of Calcutta. Bengal, which is just across the bay from Burma, is chief base for the coming invasion. It happens to be one of the principal American bases in India.

## Reject Early Action

Among the Indian leaders who are pressing anew for settlement is C. Rajagopalachari (better known as "C. R."), moderate Nationalist who is one of the most influential men in the country. He is a Brahmin, and so belongs to the highest Hindu caste, and incidentally is father-in-law of Davidas Gandhi, the Mahatma's son.

C. R. in an article in the Nationalist newspaper Amrita Bazar Patrika declares the Indians made a great mistake last year in rejecting the Cripps proposals for dominion status. He advocates the "whole-hearted acceptance of the Cripps plan for a constituent assembly on the basis of complete self-government in India."

As already reported in this column, my study of the situation while in India some months ago convinced me that the Indian leaders regretted their rejection of the Cripps proposals and were ready to compromise. Whether they would be ready now to make blanket acceptance of the proposals without ironing out some difficult spots might be doubtful. However, I understand from important quarters that there is one thing which would work. It's sensational but probably practical, and it involves the king-emperor.

## Appeal From King

If his Majesty, acting on the advice of his prime minister, should call upon his people, both Indians and Britons, to bury the hatchet and form a coalition government in New Delhi for the purpose of the war effort, it's probable that all hands would turn to with a will. Such a government could be without prejudice to discussion of Indian claims after the war. It would in effect be a provisional government out of which the dominion status likely would grow. This plan naturally would involve the release of Mahatma Gandhi and other leaders from prison.

The point is that most Indians regard the king-emperor as outside politics, and he means more to the average subject than the government itself. But of course, his majesty could act only if Mr. Churchill advised him to do so, and the prime minister certainly would want assurances that the Indian leaders were indeed in the right frame of mind for such a gesture.

**Smart Replaces Smith On Ballot**

Pittsburgh, Oct. 16 (AP)—The Allegheny County Democratic executive committee last night unanimously selected County Solicitor Walter P. Smart for the common pleas court nomination won in the primary by the late Judge Ralph H. Smith.

There remained a possibility that Judge Smith's death yesterday came too late to permit a substitution.

The election law provides that in the event a nominee dies his party may pick a substitute "any time previous to the day in which the printing of the ballots is started."

The 2,600 military absentee ballots for the Nov. 2 election already have been printed, with Judge Smith's name on them, and must be mailed out Monday.

# TALLY IN LAST PERIOD GIVES DELONE 7-0 WIN

For three periods in the game here Friday night it looked as though the Gettysburg high Maroons might halt their losing streak with a tie but in the final period Delone Catholic put on a scoring drive that netted a touchdown and a 7-0 victory.

Inclement weather held the crowd to approximately 500.

Although outplayed by the husky Delone grididers throughout, the Maroons put up a gallant battle and made use of several breaks to halt earlier scoring threats.

A heavy mist fell throughout most of the game and fumbles were frequent with Delone suffering mostly from the miscreants.

Delone drove 40 yards for its score. Palmer finally plunked through the line from the 2-yard line. H. Noel flipped a pass to Overbaugh for the extra point.

## Fumble Costly

Although Delone pushed the Maroons around to amass 12 first downs, the determined Maroons braced time and again when deep in their own territory to stop the threats. Late in the third period Delone marched to the Maroons' 15 only to lose the ball on a fumble when a Maroon player pounced on the ball on the 18.

The game opened with Gettysburg kicking off but the boot was short and fumbled by Delone with Gettysburg recovering at midfield. Dorsay, who timed and again kicked beyond the Delone safety man, booted a long one to the Squires' 10. Neither team could open a consistent offense and play was mostly in midfield. That Dracha's kicking.

Coach Dracha's lads started to move late in the second period with Palmer, the best ground-gainer of the evening, W. Noel and Link bearing the brunt of the attack. Starting from midfield Delone rolled up three straight first downs but the first half whistle halted the threat with the ball on the 10-yard stripe.

**Gamble Fails**

The Dry-men received the second half kickoff which was returned by Dorsey to the 31. Eight yards were picked up on three plays and then the Maroons gambled on making a first down on their last try but Delone held to take the ball on the 40.

Delone then drove downfield only to have the attack broken up by a fumble giving the Dry-men the ball on the 18.

Early in the fourth period the Maroons fumbled on the 40 and from that point Delone marched uninterrupted downfield for a score. Coach Dry's youngsters put up a gallant stand against their heavier opponents after a first down had been registered on the 5 and it took the Dry-men plumes before Palmer crashed through.

The game ended with the Squires having the ball deep in Gettysburg territory due mostly to a 15-yard penalty.

## Defense Better

The Maroons defense showed considerable improvement over that of previous games and their showing against the Squires was a bit of a surprise to local fans.

Offensively Gettysburg didn't have a chance. The locals failed to register a single first down and failed on four attempts through the air.

Delone rolled up 12 first downs, completed four of six passes and had one intercepted.

Tonsel, sub back, turned in a bit of nice tackling while Little also was a steady performer defensively. Timbers carried the ball well on the offensive but was given little support from his blockers. The line played better than anticipated and on several occasions showed real strength.

Sparkling Jake Dracha's warriors on the offense was Palmer and W. Noel. The entire Squire line showed its strength by holding Gettysburg without a single 10-yard gain.

## Penn Favored To Defeat Lakehurst

Philadelphia, Oct. 16 (AP)—A favored University of Pennsylvania football team is ready to take the field here this afternoon to test the prowess of Lakehurst Naval Air Station before an expected 20,000 fans.

When the Red and Blue lines up on Franklin field two new starters, George Veling, of Brooklyn, will be at fullback and Jask Rosenthal, of Newark, N. J., will be at left end, Coach George Munger said.

## FOOTBALL AIDS TROOPER FORGET

Philadelphia, Oct. 16 (AP)—A Marine paratrooper who was officially reported dead following a battle on a Pacific island last year, is ready to go into action as a guard for the Lakehurst Naval Air station when they meet the University of Pennsylvania on the gridiron this afternoon.

The former paratrooper, PFC John Dundenake, 21, of Pocatello, Idaho, is now training as a paratrooper rigger and is a "spunkey football player with promise," says Lieutenant Commander A. H. (Mel) Edward, Lakehurst's coach.

Dundenake, fully recovered from his wounds, said "I want to play football because it gets my mind off what I've seen and been through."

The husky young Marine said he was injured when an explosive shell hit his rifle and showered fragments into his neck and throat. As he laid on the ground unable to talk a captain passed over him and said "He's dead," Dundenake explained.

"At last," he said, "I could move and I jumped up and started shooting again." An officer yelled at me, "Get off this island before you get killed." Two hospital corpsmen carried me to the boat."

He was in a south Pacific hospital for several months then returned to the United States. Coach Edward says there is no doubt that he will play against Penn.

### BASORA WHIPS FRITZIE ZIVIC

Detroit, Oct. 16 (AP)—Former lightweight champion Fritzie Zivic of Pittsburgh suffered one of the most difficult setbacks of his long ring career when Jose Basora, rugged Puerto Rican from New York, punched out an easy ten-round triumph last night. Basora weighed 151½, Zivic 150.

Zivic, who meets Jake La Motta of the Bronx in New York next month, had hoped to match par for the course on Basora—five knockdowns and an easy decision that La Motta scored here recently. But Basora, a 1 to 2 underdog in the betting, didn't give flat-nosed Fritzie a chance.

Referee Elmer (Slim) McClelland's scorecard gave Zivic the first round and called one other even, the rest going to Basora. The two judges scored Zivic no rounds at all but stopped that two were even.

Between puffed lips and with his left eye opened at two places, Zivic had no protest.

"I just couldn't get started," he muttered.

### Advisor To Cox Resigns Position

Philadelphia, Oct. 16 (AP)—John Hamilton Potter, advisor to William D. Cox, owner of the Philadelphia Phillies, and a director of the Philadelphia National league club has resigned as advisor to Cox.

Potter, whose father, Col. James Potter, was president of the Phillips in 1903, said he has accepted a position on the personal staff of Louis B. Mayer of Metro-Goldwyn Mayer pictures and will leave immediately for Hollywood.

### Makes Third Escape From County Prison

West Chester, Pa., Oct. 16 (AP)—In the third break from Chester county prison within a month, Charles W. Grab, 28, Coatesville, Pa., steel worker serving a 21 month sentence on a hit-run driving charge, escaped Thursday by running out of the front door in full view of a guard, the prison announced.

Grab, a trusty, sweeping out the jail office, suddenly threw down his broom and ran, prison officials said.

A prisoner since May 27, Grab pleaded guilty to a charge of assault and battery after three girls were injured in a hit-run accident.

### FIORENTINO WINS

Philadelphia, Oct. 16 (AP)—Nick Fiorentino, 215, Philadelphia, was on the heavyweight comeback trail today after scoring a third knockout over Lester Jack Rose, 205, New York, here last night. The Philadelphian, now employed at the Cramp Shipyard, appeared in fine condition despite an eight month layoff as he floored Rose with three straight rights to the jaw.

### Finland Increases U.S. Debt Payment

Washington, Oct. 16 (AP)—Finland agreed Friday to increase its war debt payments to this country by more than \$42,000 a year for 20 years in order to overtake a two-year lapse caused by the Russo-Finnish war.

An agreement announced jointly by Finnish Minister Hjalmar J. Procopio and Undersecretary of the Treasury Daniel W. Bell said the payments would be made semi-annually, June 15 and December 15.

Finland, only country still making war debt payments, still owes the United States about \$9,000,000.

## Ursinus Clips Owls 10-6 On Place Kick

Philadelphia, Oct. 16 (AP)—The Ursinus Bears edged out the Temple Owls 10-6 in rain-swept Temple Stadium last night on a 26 yard place kick by Dean Steward, 210-pound fullback.

Tony Huber sparked the Owls drive in the third quarter and paved the way for the Temple team's only touchdown with a series of passes. Goetz plunged over for the Owls culminating a 70-yard drive.

The Bears scored on a 52-yard pass in the first quarter and put the game on ice with Steward's placement.

## NAVY TOO GOOD SAYS HIGGINS

State College, Pa., Oct. 16 (AP)—Football Coach Bob Higgins of Penn State herded his team into automobiles Friday for the trip to Annapolis for today's game with Navy, predicting gloomily that "I'm afraid they're too strong for us."

The Nittany Lions squad of 50 arranged a stop at York for a Friday afternoon practice session on the York high school field.

The most serious blow to Penn State's hopes is the loss of Fullback "Sparky" Brown, who was hurt in the Colgate game when six stitches were required to close a cut in his face.

"We're going to miss Sparky," said Higgins. "He's a real player."

"No," he added, "it doesn't look very good for us. Navy has been playing good teams and winning. I only hope we can play a respectable game and make a good showing."

During the past week, the Nittany Lions have concentrated on defense with scouts reporting Penn State must outcharge the Middies in the middle of the line if Navy is to be stopped.

Higgins said that except for Brown his team would be at full strength.

## COAL INDUSTRY DESCRIBED AS "POWDER KEG"

By MARBEN GRAHAM

Pittsburgh, Oct. 16 (AP)—The holiday of more than half of Alabama's miners and conditions shown in a survey of other fields have the coal industry today, in the words of a veteran authority, "atop a powder keg with firecrackers exploding all around."

Top executives on both the union and operators' sides agreed the situation has been made more tense by the government's return of the mines to owners this week without their having a contract with the United Mine Workers.

Hopes that a decision by the War Labor Board on contracts negotiated between the union and the anthracite operators and Illinois Coal Operators Association might pave a way for a quick settlement appeared dashed by reports from Washington that the board did not expect to act "for a week or more."

### NOT Complaining

John L. Lewis, president of the UMW, set October 31 as the deadline for the truce last July which ended the third walkout of the miners since May. The Smith-Connally anti-strike bill, in the meantime, has barred strikes in essential industries without 30 days' notice. The union so far has taken no step to comply with this regulation.

The Illinois-UMW contract would give the miners, with other gains already granted by the WLB, more than \$2 a day additional pay, by allowing an hour and a half daily for underground travel. This would be contingent upon an equalizing price increase which operators estimated would amount to from 23 to 40 cents a ton.

The WLB rejected an earlier contract between the union and the Illinois operators granting a flat increase for underground or portal-to-portal pay, stating it regarded that as a flat pay boost in violation of the "Little Steel" wage formula.

The greatest pleasure I know is  
to do a good action by stealth, and  
to have it found out by accident.

Just Folks

By Edgar A. Guest

THE PIONEER

This is the lot of the pioneer:  
He must keep his faith when his  
fellows sneer.

He must follow his vision, brave of  
heart,  
And go it alone when his friends  
depart.

There are kinfolks many whom he  
must shun  
Lest they break his will with:  
"It can't be done!"

He must deafen his ears and blind  
his eyes  
To the few whom his world be-  
lieves all-wise.

For not often a wise man further  
looks  
Than the final word in the newest  
books.

And books are just with what's done  
concerned,  
With seldom a word of what may be  
learned.

Thus, he who is bound for a better  
way  
Must cope with discouragement,  
night and day.

And he who would venture for  
triumphs new  
Leads a lonely life and a hard one,  
too!

## Today's Talk

By George Matthew Adams

## WALK IN THE SUNSHINE

Whenever possible I always make  
it a point to walk in the sunshine. I  
always cross the street to do this, when it is feasible. I love the sun-  
shine. It is God's greatest gift to  
this earth, for nothing would be  
possible, nothing could live, without it.

From my home window I look out  
upon a great group of trees. Each  
year I note them reaching higher  
and—higher into the maximum sun-  
light. Plant a tree partially in the  
shade and you will note how it  
leans, and reaches, to the side where  
the sun shines most.

At my Summer camp are two  
beautiful trees, side by side—just  
inches apart—but only two sides are  
developed—the side to the morning  
sun and the side to the afternoon  
sun. The middle portion of each  
tree is as though it had been cut  
away—no sun to nourish and build.

Walk in the sunshine. Think in  
the sunshine. Bathe your thoughts  
in the sunshine. It is God's medi-  
cine—free to us all.

Read sunshine books—books that  
give light to the mind, and not a  
melancholy darkness. And by sun-  
shine books I do not refer to so-  
called "sappy" books at all, but to  
books with inspiring substance to  
them, books that lift you in mind  
and spirit, and make you feel that  
all is right with the world, no mat-  
ter how tragically man has messed  
it up.

Note at the end of day, after the  
sun has warmed everything upon  
the earth, how things cool, with  
many a flower folding its colorful  
blooms, just the moment that shadows  
creep, shutting out the sun-  
shine.

Sunshine light is magic light,  
transforming all that it touches.  
And what a thing of beauty the  
sunshine makes of this world—  
bringing forth rainbows, putting in-  
describable coloring into sunsets,  
painting pictures that no earthly  
artist is able adequately to repro-  
duce upon the cloudy sky, across  
mountain tops, and all over every  
landscape.

Babies thrive and grow strong in  
the sunshine. They need it as much  
as do the flowers. Playing in the  
sunshine comes natural to them.  
People touched with sorrow, or hurt  
in heart, can find solace by walking  
in the sunshine!

## Out Of The Past

From the Files of the  
Star and Sentinel and  
The Gettysburg Times

TEN YEARS AGO

**S. Delegates Elect Officers:** Two  
addresses, election of officers and  
the selection of Indiana as the 1934  
convention city featured the last of  
the plenary sessions of the seventy-  
first annual Pennsylvania State  
Sabbath School association at the  
Majestic theatre on Friday morning.

One of the two vice presidents  
elected was C. Culp of Gettysburg.  
Registering at the convention were  
1,250 delegates from 60 counties.

Evening sessions were held in St.  
James Lutheran and the Presby-  
terian churches.

During the presentation of the report  
of the committee on memorials and  
necrology, tribute was paid to the late  
Miss Lily B. Dougherty, of  
Gettysburg, who served as secretary  
of the Adams county Sunday school  
association for 20 years.

## Riding with Russell

Reg. U. S. Pat. Off. by FREDERICK C. RUSSELL, Member S. A. E.

Another way to get around a  
shortage of gas for your car is to let  
your mind wander.

Regardless of what the weather  
prophets may say the winter we  
face as motorists will be the worst.  
That's because our cars were  
never in poorer shape. There may  
be less snow and fewer sub-zero  
mornings but the car will take it  
hard nevertheless. Cars are older.  
They'd be happier about the whole  
thing wintering on the sunny  
beaches of Florida.

## These Cause Rupture

What happens to the tires is  
largely a matter of what kind of  
driving they have received. This is  
well illustrated in the case of  
ruptures of the carcass due to  
breaking the cords. A sharp impact  
with a large rock will do it.

Less evident to the driver, but  
equally harmful to the tires, is a  
break in the paving. This never  
seems as costly as running over an  
obstacle on top of the road surface.

Railroad crossings still are a com-  
mon cause of tire rupture. Curbing  
is especially bad where the  
driver has not yet taken the trouble  
to be a good judge of distances or  
where he does not have the benefit  
of direct observation.

Some things about some cars  
simply can't be helped, so don't  
waste time worrying over one of  
these situations if your car harbors  
it. Self-energizing brakes, for in-  
stance, are quite likely to hold too  
well when the car is stopped quickly.

If you are like millions of other  
motorists you probably have a hard  
time remembering whether a cold  
spark plug should be used for a  
hot engine or a cold one. Would  
it help you to consider the parallel  
case wherein you order a cold drink  
on a hot day and a hot one on a  
cold day? Cold plugs are for  
engines that operate at too high a  
temperature. These have a shorter  
insulator which thus provides more  
rapid escape of heat from the elec-  
trodes to the engine head. If an  
engine runs too cool you use a hot-  
ter plug, one that is less efficient  
in conducting heat from the points  
to the engine. There are, as you  
may know, a wide variety of heat  
types for the equally wide variety  
of engines. In making a change it  
is important never to go more than  
one step in the heat range at a time.  
Try cooler or a hotter plug and then,  
if this doesn't do the trick, go one  
step farther whichever way is  
indicated.

**Mechanic Joe Speaking:** "I still think it's a good idea to  
look for the most likely causes of  
car trouble first, even though they'll  
probably think you're lazy. When  
hydraulic brakes go bad it's smart  
to suspect that there isn't enough  
fluid in the reserve tank. If the  
engine stalls, check the fuel supply;  
and if the engine overheats, always  
check water, oil and fan belt first."

"In the line of engine knocks you  
can be reasonably sure of finding  
the trouble in the pistons and con-  
necting rod assemblies because these  
parts are subject to constant re-  
ciprocating motion. In ignition fail-  
ure take a look at the breaker  
points, and if the whole electrical  
system has gone haywire always  
check the battery."

When the carburetor takes to  
dripping gasoline several things may  
account for it. I would check the  
float mechanism first as this easily  
gets out of whack. There may be  
dirt under the float needle valve so  
be sure to clean out the carburetor  
if the float mechanism doesn't re-  
act.

## East Berlin

**East Berlin**—Mr. and Mrs. Bruce Anderson and family, who have lived for some years on route 3, plan to move soon to the Abbottstown street house recently vacated by Mr. and Mrs. Ernest Masemer and daughter, Ruth, who have moved to Route 1.

Mrs. Oram Altland with the Misses Dolly M. McIntire and Ruth Zeigler spent the week-end in New York city. They were accompanied home by Corp. Aaron O. Jacobs, formerly of this place, who is stationed in New York on detail work from Fort Harrison, Indiana. He spent a short furlough with relatives here.

Mr. and Mrs. Curtis Deatrick and daughter, Miss Ruth A. Deatrick, Route 2, entertained Mr. and Mrs. John Rish and daughter, Stony Brook, Sunday.

The annual Rally Day and Homecoming services will take place Sunday morning at Trinity Lutheran church with the Rev. Ralph B. Baker, guest speaker at the Rally Day and the Rev. Paul Glatfelter, Jacobus, for many years Lutheran pastor here, as guest preacher at Homecoming.

Mr. and Mrs. Charles S. Myers, Route 2, had as recent house guests their son-in-law and daughter, Mr. and Mrs. Paul Anderson, Baltimore, and son.

The local chapter Future Farmers of America, held a meeting at the high school during the past week with the president, Robert Meckley, in charge. Fifteen members attended. A motion was made to purchase 150 Rock Hamp chickens for a bazaar project as they conducted last year. It was decided to hold a meeting at the same place on the evening of October 27. Clair Bassett was recently chosen vice-president.

Mr. and Mrs. John Myers and Mr. and Mrs. John E. Gentzler, with the Rev. Paul Glatfelter, Jacobus, former Lutheran pastor here, have returned from a trip to Roanoke, Virginia, where they attended a conference of the Lutheran church.

A re-organization meeting of the local Home Economics group took place Thursday at the home of Mrs. John Hollinger Myers to make plans for resuming activities after the summer suspension.

Miss Beulah E. Wentz, teacher of the primary department of the local public school, reports that these pupils have perfect attendance records for the past month: First grade—Donald Boyer, Harry Cleaver, Jr., Harold E. Cooley, Nelson Groupe, Lanny L. Oberlander, Galen Taylor, Nelson Thomas, Clotilde Buscaglia, Kathryn Castellana, Joyce E. Danner, Jane A. Ebersole, Shirley Goulen, Sara Lou Hull, Mary L. The Ladies' Aid society of Trinity Lutheran church is planning to conduct a Hallowe'en social the last week of October at the store room at the home of Mrs. Samuel D. Kling. Mrs. Raymond L. Hoffman will be co-hostess.

A son was recently born to Mr. and Mrs. Chester G. Lebo at their Route 2 home.

**Penicillin Rushed To Middletown Girl**

Harrisburg, Oct. 16 (AP)—A voluntary fact-finding committee of the Church club of the Pittsburgh Episcopal church diocese today announced it had a list of eight clergymen whom it considers possible successors to Bishop Alexander Mann, who retired several months ago.

R. B. Tucker, chairman of the committee, said the new bishop, to be elected next Tuesday in a special diocesan convention, would not necessarily be chosen from the list. The names were mailed out to the 60 clergy and 150 lay delegates of the diocese.

The list includes three Pennsylvanians, all from Pittsburgh, and five out-of-state men.

**HONOR CIVIL WAR VET**

Harrisburg, Oct. 16 (AP)—Condition of Helen Kostik, 15, being treated with penicillin for a blood-stream disease, remained critical today and attending physicians said they would have to wait until tonight for any clues as to whether the newly discovered drug would help their patient.

Helen, daughter of Mr. and Mrs. Michael Kostik of nearby Middletown, became ill Sunday of septemtemia. When sulpha drugs failed to help her rally, penicillin was rushed to the Harrisburg hospital from Philadelphia by state police.

Webster Hohlaas, hospital super-intendent, said "a pimple on the side of her face" probably started the infection.

At Helen's side since she was brought to the hospital has been her sister, Stella, a nurse in the Philadelphia Jewish hospital.

## G-GIRL

By LYDIA GRAY SHAW

AP Photo

**YESTERDAY:** On her first day at work Sally is sent to be vaccinated, a requirement for all new workers. The doctor is a cool, somewhat cynical young man who predicts she won't be able to take it in Washington, and probably will run home to her mother.

**Chapter 3**  
It was Tuesday when Sally Thayer typed the first schedule for the War commission. Four days later she was still typing schedules. Never in her life had she typed so many rows and rows of figures. She pulled another batch of an original and seven carbons out of her machine, and thought wearily that if she could write just one letter to break the monotony, she'd sing for joy.

All this brooding over old times isn't getting me anywhere, Sally thought ruefully, but just the same it was fun to dwell for a moment on those carefree days. She'd never before stopped to think how important friends were. Since the day that infuriating doctor had predicted she wouldn't be able to take it, Sally hadn't even said good morning to anyone except Mrs. Fenton and Miss Lyons. In this huge room filled with war workers, Sally felt as solitary as though she were alone in a walled-up cubicle.

Next to her, Mrs. Fenton stood up to go to lunch, wearing the inevitable smock that made her short, dump figure even more unattractive. In the days past, Sally had tried several times to talk with her neighbor, but she hadn't gotten far. She gathered that Mrs. Fenton was an old-time government employee who was soured on life because her agency had been required to strip its payroll. Privately, Sally thought Mrs. Fenton lucky to have a job at all.

Blessed be the name of Civil Service. Miss Lyons had said laconically, when Sally inquired about the Orphans' Court of Adams County, Pennsylvania, at the Court House in Gettysburg, Adams County, Pennsylvania, and that the same will be presented October 15, 1948, to the Orphans' Court of Adams County, Pennsylvania, for confirmation.

A re-organization meeting of the local Home Economics group took place Thursday at the home of Mrs. John Hollinger Myers to make plans for resuming activities after the summer suspension.

Mrs. Fenton surprised Sally now by saying, almost pleasantly, "I'll see you on Monday."

"Oh, you won't be back after lunch?" The War commission now worked six full days a week.

"No—I'm taking my sick leave and going over to Alexandria to see my sister."

Sally didn't understand. "I thought sick leave was just for illness."

Mrs. Fenton was amused. "You don't think I'm not going to use up all the time the government sees fit to give me even if I am healthy? You certainly don't know the ropes around here. I will conveniently get a headache after lunch and go home. And the boss will make out a leave slip for me and that will be that. Goodbye."

Sally watched her trudge off. What a crazy business it was. You paid taxes to the government so it could pay your salary, then you figured out ways to gyp your boss—who was really yourself. Well, it's Mrs. Fenton's conscience, not mine, Sally decided. The office boy dropped another batch of papers in her box, and she started typing again with a sigh.

Saturday noon. Back home in River Edge she'd be leaving the office with the whole long delightful weekend stretched ahead of her. Probably she'd go out to the golf

Cool weather is coming, and while you may not be able to go duck hunting as easily as in pre-war days, you still have certain fall chores to do. One is preparing your car for winter. But take a load off your mind; turn the job over to us.

Tomorrow noon. Sally was going to find herself a room. She'd searched the furnished rooms column in the papers hopefully last night, and though the list seemed long enough, most of the people advertising wanted to ask her if she was getting along all right.

Sally's spirits soared like a kite. Mr. Chase was right. She wasn't going to spend all her life doing this drab typing. Some day—soon, maybe—she'd get a chance at something good.

dence says to use proper size drills. Which is right? G. L. Mc. C.

A. They are talking about different things. Jets are easily damaged and thus should not be cleaned with anything but compressed air but if black carbon forms in the carburetor throat it will be necessary to use a drill to break these deposits, otherwise not enough air will be introduced before gasoline reaches the idle port.

Q. The engine of my car starts immediately, then immediately stalls. After that I have a great deal of difficulty getting it under way again. Do you think this indicates choke trouble? H. B. B.

A. From the symptoms I should say that this carburetor is afflicted with leakage. It will be of the internal kind, fuel running into the intake manifold when the car stands. Have the carburetor taken off the car and carefully checked. Leakage will probably be found around the jet gaskets.
